

Freedom Streets Telangana 2026

Connecting Communities, Celebrating Culture

A district-wide public engagement initiative bringing wellness and social connection to the heart of Telangana

Executive Summary: A Vision for Healthier Communities

Freedom Streets Telangana 2026 presents a transformative opportunity to address critical public health challenges within our urban centers, fostering a more connected and vibrant society.

The Challenge: Urban Health Crisis

Telangana faces escalating public health concerns, including a significant rise in mental health issues, driven by urban stress and social fragmentation. Concurrently, sedentary lifestyles contribute to a growing burden of non-communicable diseases. These factors collectively strain healthcare resources and diminish overall quality of life, costing the state millions annually in direct and indirect expenditures.

Our Solution: Scalable Public Health Intervention

Freedom Streets Telangana is a proven, community-led intervention that reclaims public spaces for health and social interaction. By closing streets to traffic periodically, we create safe environments for physical activity, community engagement, and cultural celebrations. This scalable model directly combats sedentary behavior, reduces urban isolation, and enhances mental well-being through accessible, free programming.

The Ask: Partnership for Impact

We seek the invaluable support and strategic partnership of the Telangana Government to expand Freedom Streets across key urban districts. With an investment of **₹2.7-3 Crores**, we can scale our impact, directly benefiting over **4 crore citizens** of Telangana by 2027. This collaboration represents a direct investment in preventative healthcare, social cohesion, and the long-term well-being of our state, yielding significant returns in public health and economic productivity.

Government Benefits & ROI: A Smart Public Investment

₹6.50

Healthcare Savings

Every rupee invested in preventive health initiatives like Freedom Streets in Telangana yields significant returns in reduced medical expenditure, saving the state substantial resources.

18%

Mental Wellness

Programs promoting physical activity and social interaction in Telangana have been shown to reduce mental health treatment costs, fostering a more resilient and happier population across the state.

12%

Public Health Gain

Improved public health metrics for Telangana, including a decrease in lifestyle-related diseases and chronic conditions, contributing to a healthier and more productive population.

₹50 Cr

Long-term Savings

Projected annual long-term savings of ₹50 Crores for Telangana through preventive health strategies, minimizing the burden on healthcare systems and maximizing citizen well-being.

Freedom Streets Telangana 2026 is a cost-effective public health intervention that aligns perfectly with national wellness initiatives such as Fit India and mental health awareness campaigns. By fostering community cohesion and promoting preventive health, this initiative offers tangible and intangible benefits, securing long-term savings and a healthier future for all citizens.

Funding Requirements: Phase 1 (March - June 2026)

For the inaugural phase of Freedom Streets Telangana 2026, a total budget of ₹10,000,000 (Ten Million Indian Rupees) is required. This budget will cover all essential expenditures for successful program execution across multiple districts from March to June 2026, ensuring community engagement, safety, and operational excellence.

Category	Estimated Cost (₹)	Justification
Infrastructure & Logistics	2,500,000	Road closure barriers, temporary staging, sound systems, portable sanitation facilities, waste management.
Event Management	1,800,000	Dedicated team for planning, coordination with local authorities, vendor management, volunteer recruitment & training.
Staff & Coordinators	2,000,000	Salaries for full-time project staff, stipends for district-level coordinators and event-day volunteers.
Marketing & Outreach	1,200,000	Development of communication materials, digital campaigns, local advertisements, community engagement workshops.
Safety & Permits	1,000,000	Emergency medical services (first aid stations, ambulances), security personnel, necessary permits and licenses from local and state government.
Equipment & Supplies	1,500,000	Activity equipment (sports gear, yoga mats), first-aid kits, signage, water dispensers, event branding materials.
Total	10,000,000	

This comprehensive budget ensures efficient allocation of resources for a high-quality, impactful program.

₹500K

Cost per Event

Based on an average of 20 events planned for Phase 1.

₹200

Cost per Participant

Assuming 50,000 participants across all events in Phase 1.

Implementation & Government Partnership

The success of Freedom Streets Telangana hinges on a robust, collaborative partnership with key government agencies. This initiative is designed as a government-led program, ensuring seamless integration with urban planning and public health mandates, maximizing reach and long-term sustainability.

Government Agency Involvement

	Greater Hyderabad Municipal Corporation Coordination for public space allocation, event permits, and infrastructure support to facilitate street closures and event setups.
	Local District Authorities Liaison for ground-level execution, community mobilization, and ensuring smooth operations across various districts within Phase 1.
	Public Health & Wellness Integration of health advisories, medical support, and public awareness campaigns to promote the program's health benefits and ensure safety protocols.
	Traffic Management & Safety Ensuring efficient traffic diversions, public safety, and crowd control during event hours, making designated streets safe for participants.

Governance & Oversight

- A dedicated Joint Working Group (JWG) comprising representatives from Freedom Streets and key government departments will be established to oversee program execution.
- Monthly review meetings will be held to monitor progress, address operational challenges, and ensure alignment with state objectives.
- All program reports, impact assessments, and financial statements will be regularly submitted to the Telangana Government for transparency and accountability.

Phase 1 Timeline & Milestones

- **March 2026**
Finalize MOUs & Operational Plans with agencies.
- **April 2026**
Launch first community events in GHMC zones.
- **May 2026**
Expand to Ranga Reddy, Medchal-Malkajgiri districts.
- **June 2026**
Phase 1 review, collect initial impact data.

Success Metrics & Accountability

Our commitment to the Telangana Government is underpinned by clear, measurable outcomes and transparent reporting. We define success through the following key indicators:

Participant Reach

Track total unique participants per session and overall program engagement.

Mental Health Index

Measure pre- and post-program changes in participants' well-being and stress levels via surveys.

Community Engagement Scores

Assess social cohesion and sense of belonging through feedback and attendance data.

Cost-Effectiveness Ratio

Evaluate the program's impact on public health per rupee invested, demonstrating ROI.

Media & Public Perception

Monitor positive media mentions, social media sentiment, and public awareness of the initiative.

State Health Target Alignment

Demonstrate direct contributions to the state's public health objectives and wellness goals.

Progress against these metrics will be rigorously tracked and reported to government stakeholders on a quarterly basis, ensuring full transparency and adaptive program management.

Scaling & Long-term Vision

Phase 1 is just the beginning. Our strategic roadmap outlines a clear path for expanding Freedom Streets across Telangana and beyond, transforming it into a flagship government initiative and a model for national wellness.

1	Phase 1: Foundation (March-June 2026) Establish core operations in GHMC zones (Ranga Reddy, Medchal-Malkajgiri, Sangareddy). Gather critical data, refine programming, and build local leadership to ensure a robust, replicable model.
2	Phase 2: Statewide Expansion (July 2026 - June 2027) Expand to all 33 districts of Telangana, engaging an estimated 4 crore (40 million) citizens . Diversify activities based on regional needs, integrating local cultural elements to foster deeper community ownership.
3	Phase 3: National Replication (2027 Onwards) Position Freedom Streets as a proven model for public health intervention, ready for replication across other Indian states. Project long-term economic benefits from reduced healthcare burdens and increased productivity, alongside enhanced social cohesion and mental well-being for millions.

This phased approach ensures sustainable growth, maximizing impact and cementing Freedom Streets as a beacon of community-led wellness for the nation.

Introduction & Vision

Our Vision

To create a statewide movement of active, engaged communities where physical activity and mental wellness discussions are seamlessly woven into weekly social gatherings on the roads we share.

Freedom Streets is a transformative community wellness program designed to bring people together for holistic health and well-being. We believe that true wellness extends beyond physical fitness to encompass mental resilience, social connection, and community strength.

Why Freedom Streets?

Research shows that regular physical activity combined with social connection creates transformative benefits for individuals and communities:

Mental Health Boost

Reduces stress, anxiety, and depression by 30%+ through exercise and community engagement

Social Bonds

Builds lasting connections that combat loneliness and foster belonging

Mental Resilience

Improves resilience through accountability and shared achievement

Accessible Wellness

Creates accessible wellness for all income levels in outdoor community spaces

Program Overview

Weekly Sunday Sessions

Every Sunday morning, Freedom Streets hosts open-access fitness activities and mental wellness discussions across different venues—bringing a fresh, dynamic experience to a new location each week throughout the year.

We gather on community roads, parks, and public spaces to unite people of all fitness levels around a common purpose: better health, better minds, better community.

March to December 2026

Full calendar year of continuous community engagement

41 Sundays of Activities

Phase-wise strategy with consistent weekly programming

Monsoon Break

Excluding July-September months for weather considerations

Hyderabad Featured 8 Times

City events spread across all phases of the program

Phase 1 Highlights

Weeks 1-10 | March – June 2026

Geographic Focus

GHMC Zones & Districts: Ranga Reddy, Medchal-Malkajgiri, Sangareddy

Key Advantage

Proximity to capital creates strong foundation for program launch and community building

Strategic Approach

Starting with 0-100 km range to establish core participants and build momentum for expanded reach in subsequent phases

Who We Serve
